Patent Bedstead.

THE Subscribers have purchased the right of
manufacturing and vending HINKLEY'S
IMPROVED PATENT BEDSTEAD for
the city of Bangor
This improvement is simple in its construction
and consists in furnishing a substantial Bottom to
Bedsteads which shall be elastic and have all the
advantages of a Slat or Sacking Bedstead, while
at the same time it serves to secure the posts and
rails compactly together, without other aid. It can
be fitted to any Bedstead, old or new, with much
less time and labor than is required to put in a
cord and when fitted, gives great strength and sup
port, and keeps the Beds ead in proper shape. It
cannot be doubted that this simple improvement
will when known take the place of every other
method now in use. We can confidently recom
mend the above improvement to our customers and
to the public, as the cheapest, most substantial and
best Patent Bedstead ever invented
The Public are respectfully invited to call and

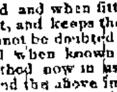
JAMES STINSON



Announces to his friends and to
the public, that he has fitted his
large commodious and centrally
located dwelling for a Public House
and has opened the same to
the public with the determination that every ef
fort shall be used to the accommodation of the
travelling community
He gives full assurance that he will keep a
TEMPERANCE HOUSE, and that nothing shall
be wanting on his part to entitle him to the appro
bation of all who may favor him with their patron
age. The House will be kept on a liberal scale,
and the most assiduous attention shall be given to
make the house a desirable and comfortable home
for travellers as well as more permanent boarders
It is believed that a Hotel of this description is
greatly needed in Oldtown and the public are in
vited to give it their support

Diarrhœa Cordial,
—AN—
Immediate and Perfect Remedy,
....FOR....
Cholera, Dysentery, Summer
Complaints of Children,
Diarrhœa, Sea Sick-
ness, general De-
bility, &c

WHERE this all powerful antidote is at hand,
Cholera is no longer to be seriously feared
or looked upon with terror—as this Cordial will
most assuredly cure the disease in the course of a
very few hours if taken at the commencement—
It has been before the public for more than sev
enteen years and was the first article made known
to the public as an

IMMEDIATE AND PERFECT CURE
OF THE
CHOLERA.

It has been thoroughly tested in every country and
every climate and its effect has everywhere prov
ed the same,

SURE TO CURE,

even where the disease has advanced to its last
stages

CHOLERA.

Accounts almost daily reach us of the ravages of
the CHOLERA both at home and abroad and of
the little success which has thus far attended the
attempts to check its frightful inroads on human
life
Such being the fact, it surely may be regarded
as an era in modern discoveries that a medicine
has been discovered possessing the power of check
ing the progress of the Cholera, and eradicating it
from the system
Mrs Kidder would most respectfully call the at
tention of the public to this invaluable medicine,
known as her

"CHOLERA, DYSENTERY AND
DIARRHŒA CORDIAL."

Many thousand lives have been saved by this
medicine when the disease has advanced to its
last stages
It is hoped that every housekeeper will keep the
Cordial at hand, and if timely administered but lit
tle danger is to be apprehended from an attack of the
Cholera, Dysentery or Diarrhœa.
This Cordial immediately checks the vomiting,
the bowels to a perfectly regular and healthy state
however severe the attack may be, or however
low the patient may have become, it invariably re
stores

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed,
the bowels healed, and not unfrequently the bow
els become perfectly regulated and restored in the
short space of ten or twelve hours

Chronic Diarrhœa,

Either in children or adults, of months or years
continuance is most readily cured with this Cordi
al, notwithstanding they may be reduced to mere
skeletons, it immediately strengthens, and shortly
restores them to perfect health

Cholera Infantum.

It has saved the lives of many thousand children
when reduced to death's door by this complaint;—
it gives them immediate relief, and they very soon
recover

Sea Sickness

It is a most pleasant and desirable remedy for
Sea Sickness. It checks the vomiting and readily
restores the patient. It never fails to check vomit
ing produced from any cause whatever

Children that are Teething,

if inclined to Diarrhœa should always be provided
with this medicine, as it will keep the bowels reg
ulated and keep off the Canker. It is wholesome,
safe and pleasant to the taste, and children are
fond of it, and will take it without trouble or dis
like

For General Debility and Dyspepsia,

it is a most excellent restorative, giving a healthy
tone to both the stomach and bowels and prevents
food from pressing or distressing the stomach
The public may rest assured that it contains
neither opium or mineral substances, or anything
that is in the least injurious to the constitution

Holden's Alterative and
TONIC MIXTURE,

IS the best combination known for changing the
unhealthy secretions of the Stomach, and giv
ing strength to that organ and for removing many
troubles which are often attributed to impurity of
the blood
Its action is that of a mild Alterative and Tonic,
restoring health and strength often without produc
ing any sensible evacuation, and without leaving
behind any unpleasant effect on the constitution
By its use the appetite becomes regular and
good, digestion perfect, sick head ache and many
nervous disturbances growing out of imperfect di
gestion are generally cured. persons of debilitated
constitutions become healthy and strong by its use.
By reason of the sympathy between the stomach
and the skin, many diseases of the latter grow out
of a morbid action of the former, even when the
ordinary symptoms of Dyspepsia are wanting and
are cured by this medicine
Many troubles of children, supposed to arise from
worms, are caused by a deranged state of the stom
ach, and are removed by its use. Persons both
adults and children left feeble by protracted illness
on the same principle are restored to health and
vigor by taking it.
It contains no poisonous ingredient and cannot in
any case do harm

John S. Sayward.—Editor

FRIDAY, OCTOBER 12, 1849.

☞ A great many applications have been made for copies of our paper containing the interesting facts in the case of the little Hangley girl who returned to life after she had died with Cholera. Our edition containing that account was very soon disposed of and in order to supply the demand and for the purpose of stating some further facts in the case we now republish the article

An Interesting Incident.

An incident of the cholera occurred in this city a few days since, which for several reasons we think worth recording. Among the households which had been entered and stricken by the fatal disease was that of Mr Hangley a worthy Irishman who has long been employed by the Commissioner of streets. His wife, a warm hearted, motherly woman, devotedly attached to children and self sacrificing to promote their welfare and happiness, was taken with the cholera and died and was buried on Thursday, Sept 20th. Next a lovely little daughter, seven years of age, was taken sick and she too died, and her body laid out and her limbs adjusted in the cold embrace of the king of terrors. The father applied to Alderman Wingate for a coffin, but for some cause it could not be had immediately, and its delivery was postponed for an hour or two, during this time Mr Hangley returned home, when the supposed dead child stretched forth her arms, with the exclamation, 'Oh Father! I have been to heaven, and it is a beautiful place!'

After the surprise and the excitement of the changed condition of the girl had subsided, she gave a relation of what she had seen, as she expressed it in heaven

She saw her mother in heaven, and she was taking care of little children, many of whom she called by name, and among them she said were 'four children of Uncle Hangley, and three children of uncle Casey's. Aunt Lynch is not there now, but she will be to morrow, and on Sunday I shall go back again'

'But,' said an older sister, 'it cannot be so, dearest, for there are but two of Uncle Casey's children dead'

'Yes, I saw *three* of them in heaven, and dear mother was taking care of them. All were dressed in white, and all were very happy and the children playing. Oh it was beautiful there, and I shall go there again next Sunday afternoon at four o clock'

Mr Hangley immediately informed Mr Wingate that his daughter was not dead, when he, in company with Dr Morrison visited the house, and the little girl related substantially the same story. It seems, too, that shortly after this relation of the little girl, of what she had seen and heard in heaven, a message came from Mr Casey in Carmel, giving information of the death of another child, and inviting them to attend the funeral

Of the four children of her uncle Hangley, two died in this city, and two were drowned on their passage from Ireland

We called on Saturday to see and talk with this little girl, but she was very feeble, and just then in a drowse, and we would not allow her to be disturbed. She is said to have a very thoughtful and serious countenance, and to be a very interesting child. She had no wish to live, but preferred returning to her mother—The father and the sisters are seriously, but very happily, impressed with the relations of this sweet child, and joyfully believe the story she tells. Their house is a pattern of neatness, and they all possess hearts overflowing with affection, and are sincerely happy on account of their heavenly messenger

'I was sorry,' said Mr H to Dr Morrison, in the honest, truthful simplicity of his heart 'when my good wife died, but I'm not now,' but only now in joyful hope of meeting at length, and they care not how soon, if it be God's time, their dear mother, in heaven, where she has been seen, by their angel sister, who has been permitted to return to the earth, and make the fact known to them

Since the above was published there have been a great many inquiries respecting this little girl, some of which we will now answer

Although at the time of the seeming death of this child it was not supposed that her aunt Lynch was dangerously ill, she not having the cholera but attacked with dysentary. But she died the next day as stated

On Sunday afternoon Mr Daniel Warren, a very worthy religious man, who has been much among the cholera patients, and feeling, perhaps, a little moved by curiosity, called to see the little girl, and addressing her cheerfully and told her that she appeared better and would soon be well, and get out in a day or two

'But I'm going to mother again at four o'clock,' she quietly and softly said

'When, to-morrow?'

'No, to-day'

Mr Warren endeavored to turn her attention to hopeful prospects of recovery, but the little sufferer was fast sinking away—the death rattle was heard, and she soon ceased to breathe, her pulse stopped, and the fixedness of death was impressed upon her beautiful countenance. She was dead!

Mr Warren looked at the town clock, in the distance, from the window, for there was no clock in the house and it was four o clock

While pondering upon, to him the singular coincidents in this case, and about half an hour had passed when new signs of life appeared and again the spirit of the sweet girl returned. She asked for water and said she was tired and sunk away into a quiet sleep

Since then she has been gradually recovering, but her elder sister who watched her so tenderly and who would so willingly have accompanied her to live with her blessed mother in heaven, was the next day taken with the cholera and the following day died and was buried

The father of this girl is ignorant, yet a fine specimen of a pure warm heart, with all the unsophisticated simplicity and truthfulness of nature. He is poor. He had a large family. And he says that for the whole season he had but two pounds of butter in his house and they had only had meat but twice. They had lived almost wholly upon bread and tea

'There were many of them' he said 'and his own hands must earn their living and by prudence a barrel of flour would last them four weeks, and he must do what he could for himself, and the children and they all were quite happy.

The little boys had by their labor picked up the boards out of which his dwelling had been constructed and he hoped after a time to have it all nicely of their own

Perhaps a more united loving and contented family where all were willing to do and suffer for each other cannot be found

Such are the simple facts in the case which we leave for the present without comment or attempted explanation

Destructive Fire!

A destructive fire broke out this morning in store No 1 Strickland's block, on the West end of Kenduskeag Bridge, occupied by Albert Titcomb, as a jeweller's shop. From thence it extended to the other stores in the block—the whole was consumed, embracing the book-store and bindery of David Bugbee, the clothing store of F Moran, the apothecary shop of Curtis & Perkins, and the shoe store of, Wm H Flagg

The entire stock of Messrs Titcomb, Bugbee, and the principal part of Moran, and Curtis & Perkins stock were consumed. Mr Flagg's stock principally saved

The chambers were occupied by the law office of Messrs Morrison and Bicknell, recently occupied by Jerome's Express, the office of the Maine Telegraph Company, the law office of Prentiss & Rawson. The books and papers of Morrison and Bicknell were lost except Mr Morrison's account books. The books, papers and furniture of the Telegraph office and Prentiss & Rawson were mostly saved

Mr Titcomb's loss estimated at about $4000, besides about $2000 in a safe, supposed to be saved. His insurance $2000. Bugbee's loss probably about $12000, and $4000 insured—Moran's loss not known. Curtis & Perkins's loss about $6000. Insured for $3000. Flagg's loss probably covered by insurance. The block worth about $5000 belongs to S P & H Strickland, was insured for $3,500 at the Protection office

The adjoining block, known as "Smith's Block,' was for an hour or two in imminent danger but by the vigorous efforts of the firemen it was saved without damage. The stock of Henry Little & Co, who occupied store No 1 in this block, was all removed and saved, but in a greatly damaged state

A timely shower did much to prevent a further extension of the flames, as the surrounding buildings on the square were thickly covered with cinders

Titcomb was insured at the Portsmouth Mutual Office, Bugbee and Moran at the Protection, Curtis & Perkins and Flagg at the Ætna, Messrs Little & Co at the Hartford.—*Whig, of Thursday*

Mr Titcomb's safe has been taken from among the ruins and its contents of watches spoons &c much injured

Pirates in the Mediterranean.

Extract of a letter from Lloyd's agent, at Salonica, 30th August—"I regret having to report that the Kohd Kleft Captain Dalenza has been committing depredations, with a band of pirates at the Island Thassos, where they plundered, on the [illegible] vessel; from thence they went to Mount Athos, where they landed and committed various acts of plunder. They then proceeded to the Gulf of Corassa, landed at Lebasse (marked in the charts Imboe) plundered the Custom house and killed the three Custom house officers in charge. I have forwarded a report of these proceedings to his Excellency her Majesty's Ambassador at Constantinople, who will, probably, despatch the Taratus, Commander Sir Godfrey Webster, in quest of these freebooters"

☞ The Skowhegan Clarion states that as Mr Albert Richardson of the Forks, and Mr Wm H Kitteridge of Augusta, were returning from a hunting excursion, across Wood Pond, on Moose River, on Monday Oct 1st, being heavily loaded with moose meat, they were struck by a squall and their canoe capsized, and both were drowned. Their bodies were recovered on Friday and buried at the Forks. Mr Richardson was 34 years of age, and leaves a wife and large family of children to mourn his untimely loss

We are indebted to Hunt's Merchant's Magazine for October—a most valuable publication, for the following facts

The deposits of California gold, to the 31st of August, were at the Philadelphia mint,

	$1,740,620 27
Branch mint, New Orleans,	125,918 73
Total,	$1,866,539 00
Add deposits of 1848,	44,177 00
Total deposits of California gold,	$1,910,716 00

The total coinage of gold dollars up to Aug 31st was $595,766

The brick store of William Slayberry, in Gray, took fire on Saturday morning, and the wood work of the building with its contents, were consumed. In the chamber of the store, was James O Donnell's Law Office. He lost his law books and some papers. His most valuable papers were saved—Loss estimated at $400.

It is understood that $1000 was insured on the building and goods.

Another Row in Portland.

The Portland Advertiser contains the particulars of another riot in that city, which took place on Friday night. The fight between the Police and several hundred fishermen who determined on having a time. After considerable skirmishing, and knocking down of some dozens of fishermen the Police succeeded in capturing the ringleader who was safely lodged in the Watch House. The rioters fled to the wharf, where they armed themselves with staves for a fresh attack—an alarm of fire was raised and soon the firemen and citizens mustered in sufficient numbers to cause the rioters to beat a retreat to their vessels.

Great Fire at New Orleans.

FIVE STEAMBOATS, WITH THEIR CARGOES DESTROYED!

NEW ORLEANS, Oct 8

A fire broke out last evening, on board the steamer Falcon which arrived at this port yesterday with a valuable cargo, a portion of which had been discharged at the time

The wind at the time was blowing strong and the flames communicated to the steamer Illinois—thence to the Marshall Ney—thence to the North America and thence to the Aaron Hart, all of which were consumed

Only two of the hulls are visible, the others having sunk. The wharf was considerably damaged by the fire, and large quantities of freight lying thereon were destroyed. Several boats lying in the immediate vicinity were fortunately saved

The Falcon was a new boat, insured for $20,000. The loss of the Marshal Ney and cargo cannot be less than $80,000. The Illinois with a large portion of her cargo was consumed—small insurance. The A Hart also had a valuable cargo on board, which with the boat, was destroyed. She was insured for $25,000

The North America was an old boat, laid up, and had nothing on board. The loss on her will be trifling

The loss on freight amounts to one quarter of a million of dollars, but little of which falls on the Insurance Companies in this city

Fire.

We learn that a large barn, belonging to a man named Walker, in Embden, was destroyed by fire about 4 o'clock on Tuesday morning of last week, with all its contents, consisting of hay grain, &c, together with a span of horses and a threshing machine, belonging to Mr Lee Merrill. The loss is estimated at from twelve to fifteen hundred dollars. It is not known how the fire originated.

Five Miles of Loaded Wagons.

On Thursday of this week the receipts of wheat in this city, as near as can be estimated were, say 21,000 bushels, allowing 40 bushels to be brought by each wagon, and 529 wagons were required to bring this quantity. The receipts of flour and other kinds of produce were also heavy, allow 175 teams loaded with other kinds of produce besides wheat, and we have a total of 700, which is doubtless within the true number, allow a space of 42 feet for each team, and we have a procession of five miles of wagons, laden with the produce of the soil, coming into our city in one day—[Milwaukie Gazette

Wind vs. Steam

On Sunday, three freight cars, loaded with rail road iron, while standing on the bridge near the Portland company's works, were set in motion by the wind, and went into the depot full speed, smashing the doors open as though they were barriers of straw. One of the passenger cars was injured. If they had been trigged, as customary this would not have happened. The force of the storm, it will be readily conceived, must have been very powerful, to move that heavy load—[Portland Argus

In the month of October, 1848 the vault of the Rensselaer family was entered at midnight by some sacrilegious wretches, the coffins were broken open and the silver plates forcibly wrenched from them. The ghouls then proceeded to rob the bodies of every article of value, cruelly mutilating them to obtain the rings, &c. After having completed their horrible work they left the vault, and notwithstanding the most unremitting search, no clue could be obtained by the police of them. A short time since one of their number, probably apprehending danger or conscience smitten, turned State evidence, and exposed the names of his associates in crime, but they got wind of it and made their escape from the city.—[Albany Knickerbocker

CAPT. JOHN NEPTUNE.

Concluded

It was on one of those warm afternoons often experienced in the latter part of September, when the black flies are so troublesome, that Neptune was returning to his home camp with his canoe, and had just doubled a headland which makes out into Moxie Pond, when but a short distance before him near the mouth of Sandy Stream, he heard a tramp, and in a moment after, three moose rushed into the water. He silently paddled his canoe behind the headlands, and disembarking among the bushes, took his gun in his hand, and putting two bullets in his mouth as he went, made a silent circuit to get a position nearer the moose, and at right angles with the place of entrance, as he knew that if he appeared or fired at them from the place where the entered the water, they would unhesitatingly swim across—whereas on the first alarm if they way was open, they would take their back tracks and march out in single file. Putting aside the bushes with one hand and holding his gun in the other, he cautiously waded into the water. The moose were so absorbed in their gambols that they noticed not their danger, till the crack of a gun awoke them. They immediately made for the shore—the hindmost on the entrance being now in advance. They had proceeded but a short distance, when a second crack again dealt death among them. Terrified beyond measure as they were and with the blood of two of them already beginning to tinge the water, they struggled manfully up the bank, and the hindmost was just beginning to be shaded by the small bushes, when he received the third bullet just behind the shoulder blade, and fell. He however rose again and struggled forward a short distance but soon gave over. Neptune found them all within less than fifty rods of the pond. The true secret of his quick loading was, that his gun was old, and as he turned in the powder at the muzzle, primed herself—a bullet from his mouth followed, and he was ready to fire

up his traps for the last time before he took up his voyage homeward. He had been very successful, and his fur was well stored at his home camp. He had forty beaver skins, sixty otter, eighty sable, and two hundred muskrat. And as he looked them over and carefully examined them for the last time no wonder his heart beat proudly, and his eye kindled with pleasure—It was on the afternoon of the third day since he left his home camp that he returned to its neighborhood, hungry and toil worn. What a prospect now met his view! naught but the smouldering ruins met his eye. Fire had been there and desolated his home, and with it consumed the fruits of his labor. He did not cry out—he did not weep—for that would have been in violation of the stoical principles in which an Indian is taught to school his heart, all his life. But this does not denote the absence of feeling. You may check its outward utterance, but you cannot stifle the inward anguish of the soul. Oh, who can tell with what bitterness of spirit this man sat beside the ruins that livelong night, in the depths of the silent wilderness!

The sun had already began to peep over the tree tops, while Neptune slowly rose from the ground and traced his steps to his canoe. As he moved forward his quick eye detected a small package of his own fur, not far from the ruins of his camp. He picked it up with joy, and was about to make search for the remainder, when the thought flashed upon him that it could not come there without hands. He examined the vicinity and was soon convinced that he had been robbed of his fur, and his camp then burned to hide the crime. The small package which he found had probably been dropped by the rogues in their hurry, and thus afforded some clue to the detection of the matter. He suspected the three persons mentioned in the early part of our story had done the deed. With true Indian perseverance he determined to ferret them out, even if his whole life should be absorbed in the pursuit, and called the great spirit to record his vow. He proceeded homeward with a speed accelerated by a thirst for revenge, and at the first "clearing" he came to, learned that three men had passed downward two days before. The revenge he sought for was not blood, but being well acquainted with the customs of the whites, he determined to discover such evidences as would produce a return of his property and cause the guilty to suffer the penalty of the law. In vain he searched about the premises of the suspected, in vain he secretly watched their movements. He could discover nothing. Indeed his only hope of being able to recognize his property, should he be so fortunate as to discover it, was, that it was his invariable custom to put a certain mark with his knife upon every skin.

Norridgewock was then, as it is now, the shire town. The court was in session, and the usual crowd of lawyers, suitors and loafers thronged the building, when Neptune marched up to the clerk's desk, and taking a pen and paper, proceeded to mark out a beaver, then an otter, sable, muskrat, making on each his private mark, and figures signifying the number of skins he had lost. The clerk, to whom he was not entirely unknown, in a few minutes conversation with him learned the facts in the case and to humor him laid the hyeroglyphic sheet in one of his drawers. For two years Capt John wandered up and down the river, seeking for his stolen property at every place where they bought fur, but without success—The robbers whoever they were, had carefully abstained from making any sales. But after two years had passed away, they thought they might sell with safety, and dispose of a single beaver skin at a time, here and there

One day Neptune came up the river and went into Mr Thompson's who kept a small store in Embden. It was a dull day for business, and Mr Thompson was lolling over the counter, with his hands thrust into his trousers pockets, probably absorbed in a brown study upon the highly interesting subject of dollars and cents, when the Indian entered

"Good day, Misser Thompson," said Neptune. [illegible] returned the trader, "Why aint you off hunting?"

"Oh, Misser Thompson, me go m soon. How much you gib for beaver, now? You got any beaver?"

"Yes, John, I've got a few"

"Misser Thompson, you let me see your beaver. Me want to see if white man skin 'em same as Indian do"

The trader feeling in a good humored mood took down his bunch of skins, and let the Indian look it over. At length Capt John found a skin bearing his private mark, and after commenting upon the excellency of the skin, inquired in a careless under tone of whom he bought the skin. The trader stated that he bought it of John

"Sartin! Misser Thompson."

"Yes, John, sartain. But why are you so particular about it?"

Capt Neptune shortly explained the matter. A warrant was soon issued for the person who had sold the skin, and upon search a quantity of the fur was found upon the premises concealed in a hollow log. The case was brought before the court, although no imprisonment ensued, the individuals charged with the robbery had their property swallowed up in the suit and fine. One fled through the wilderness to the provinces, and the others were for a long time missing from their former places of abode

HENRY LITTLE & Co tender their sincere thanks to the Fire Department and the citizens of Bangor, for their prompt and vigorous exertions in saving their property at the great fire of yesterday morning.

Bangor, Oct 12.

500 Dollars Reward.

Doct A. A MANN offers five hundred dollars to any one who will produce the man upon whose person was found the ridiculous papers disclosing the awful scheme to murder Flint. Also, the man that was to accomplish the dreadful deed.—The original documents in *Coolidge's hand writing*.—ALSO, THAT TRAIN of "CARKS" that carried Coolidge off

The above sum shall be paid as above, any time within two months. A A MANN.

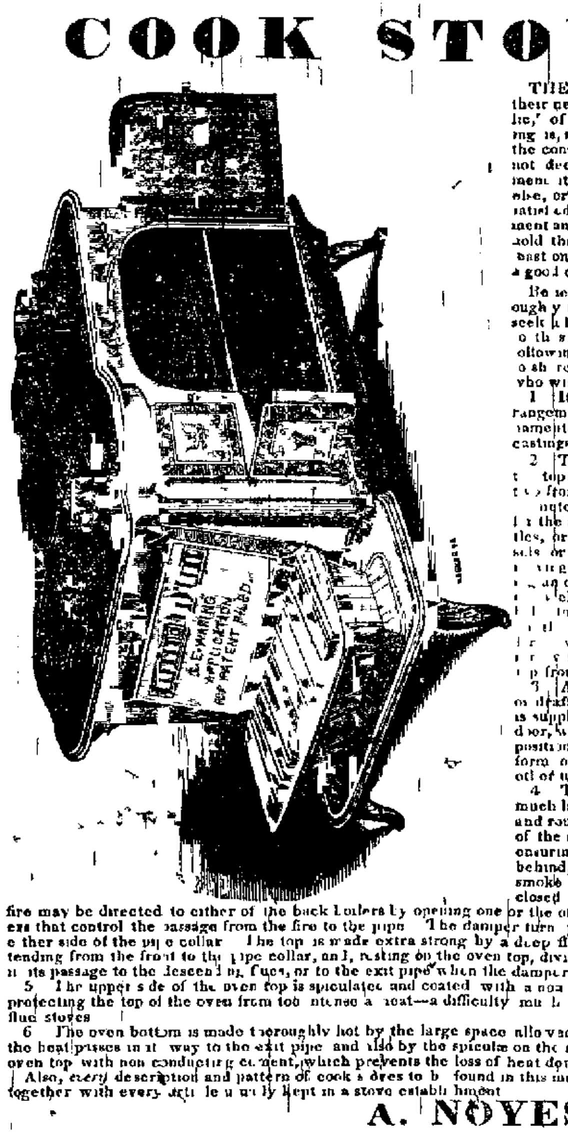
REPUBLIC AIR-TIGHT COOK STOVE.



THE subscribers, in offering their new Stove called the 'Republic,' of which the annexed engraving is a correct representation to the consideration of the public do not deem it necessary to recommend it as superior to every thing else, or a cure for all the ills of life, satisfied that persons of good judgment and correct taste will not withhold their approbation, but will, at least on trial find it all they want of a good cooking stove

Believing that those who thoroughly examine their stove will not seek a better one they would offer to those unacquainted with it the following reasons why they expect to share freely the favors of those who wish to purchase

1 Its general economy of arrangement, comely proportions ornamental appearance, and heavy castings

2 The particular construction of the top plate, by which either of the two front holes may be enlarged in diameter from three to four inches, for the accommodation of brass kettles, or other large-bottomed vessels or they may be united by removing the two lift out pieces, forming an oblong oval twenty one inch [illegible] eleven in the No 8 or 8 inch [illegible] stove, thereby affording a place [illegible] reception of an unusually [illegible] boiler at the same time [illegible] ing the exposed part of the top from the intense heat of the fire

3 A drop front door, with an air or draft slide, by which the furnace is supplied with heated air This door, when let down to a horizontal position, makes a convenient platform or a broiler, toasting iron &c [illegible]

4 The flues or fire passages are much larger than in ordinary stoves and rounded wherever the direction of the current is changed, thereby ensuring a full and free draft over, behind, and under the oven, the smoke pipe when the dampers are closed Or the whole force of the fire may be directed to either of the back boilers by opening one or the other of the two swing dampers that control the passage from the fire to the pipe The damper turn pass through the top plate on either side of the pipe collar The top is made extra strong by a deep flange cast on the inside, extending from the front to the pipe collar, and, resting on the oven top, divides the current from the fire in its passage to the descending flues, or to the exit pipe when the dampers are open

5 The upper side of the oven top is spiculated and coated with a non conducting cement thereby protecting the top of the oven from too intense a heat—a difficulty much complained of in reversible flue stoves

6 The oven bottom is made thoroughly hot by the large space allowed to the flues through which the heat passes in its way to the exit pipe and also by the spiculæ on the stove bottom, coated like the oven top with non conducting cement, which prevents the loss of heat downwards

Also, *every* description and pattern of cook stoves to be found in this market, *without any exceptions* together with every article usually kept in a stove establishment

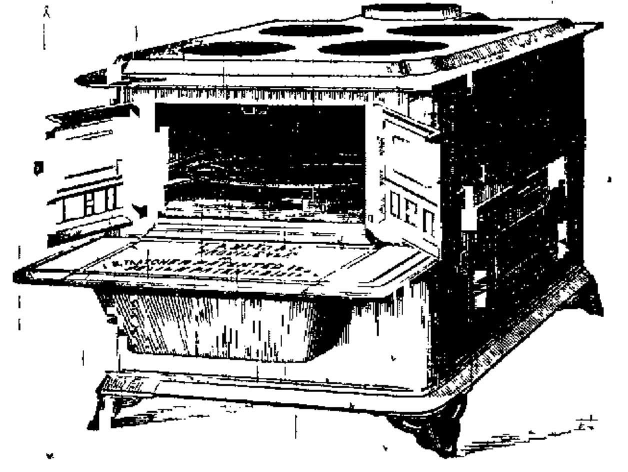
[illegible]ATCHER'S Hot Blast Air Tight COOKING STOVE,

The Greatest Invention of the Age.



A New Pattern for 1849.

AMONG a host of competitors, THIS STOVE, for its superior advantages, took the first premium at the American institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co Fair Massachusetts and Franklin Institute, Philadelphia

One very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes, retaining its juices and giving steaks the same fine flavor and pleasant twang of the best charcoal broil (it being equally well adapted to toasting roasting or frying) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling The broiling department is always ready it being operated by the same fire required for other purposes, and no interfering with any other part of the cooking

The flues being the entire width and passing directly around the oven, applies the heat to all parts alike The oven for Baking is not equalled by any Stove in use *Warranted as above for thirty days*

COMPOUND EXTRACT OF

SARSAPARILLA.

The Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles; it is six times cheaper, pleasanter and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known, it not only purifies the whole system and strengthens the person but it creates new, pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success — It has performed within the last five years more than 100 000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr Townsend s Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs, and strength to the muscular system in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest Hectic Flush, Night Sweats Difficult or profuse expectoration, Pain in the Side &c, have been and can be cured

SPITTING BLOOD

New York, April 28, 1847

DR TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live — I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL, 65 Catharine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell s Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism considerable of the time I could not eat sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good, I am so much better—indeed I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours, respectfully,

JAMES CUMMINGS

FITS FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it and was surprised to receive the following from an intelligent and respectable Farmer in Westchester county

Fordham, August 3 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought as she was in a very delicate health we would give her some of your Sarsaparilla, and are very glad we did for it not only restored her strength, but she has had no return of the fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend s Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nerviousness of the female frame which is the great cause of Barrenness — It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life,*" should neglect to take it, as it is a certain preventive for any of the numerous and horrid diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body not so far stimulating as to produce subsequent relaxation—which is the case of most medicine taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon childbirth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet Despondency Heartburn, Vomiting, Pain in the Back and Loins False Pains Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation which when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of nature—not of *powder or soap* If there is not a free and healthy circulation there is no beauty If the lady is fair as driven snow if she paint and use cosmetics and the blood is thick, cold and impure she is not beautiful If she be brown or yellow and there is pure and active blood it gives a rich bloom to the cheeks and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions they should use Dr Townsend s Sarsaparilla Thousands who have tried it are more than satisfied, are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend s Sarsaparilla have invariably called their stuff a *great remedy for females &c &c* and have copied our bills and circulars which relate to the complaints of women word for word—other men who put up medicine have since the great success of Dr Townsend s Sarsaparilla in complaints incident to females recommended theirs although previously they did not A number of these Mixtures Pills &c are injurious to females, as they aggravate disease and undermine the constitution

SCROFULA CURED

This certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully,

AGENCY FOR BUSINESS

With U. S. Patent Office

WASHINGTON

NO. 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 10th Sec of Act of 37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *where by a Patent may be procured about six weeks earlier,* he continues to forward them free of expense— to prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters in general, of paramount importance in order to obtain correct specifications and claims* The experience of *sixteen* years practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

R H EDDY, Solicitor of Patents

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn Brown or Black Sandy Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M Ballard's

Permanent Liquid Hair Dye,

Of one preparation, which is entirely different from all other preparations of Hair Dye now before the public Is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and coloring it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious On the contrary, it improves the lustre of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy softness, and easy application, it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black It is now used to an unaccountable extent, by persons who have prematurely turned gray, and others whose Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, Brown or Black without any additional preparation or the slightest trouble

N. I. DOWN'S Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world, for *Colds Coughs Whooping Cough, Croup or Quincy, Asthma, Pain in the Side or Stomach,* and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe —never dries up the cough, leaving the cause untouched—but first *loosens the cough, increases the expectoration or spitting,* then removes the cause, *eradicating it completely* from the system, when as a matter of course, the *cough ceases,* and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time, having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration,* thus expelling by the pores of the skin, those nauseous fluids and impurities of the blood, the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to, but we can say, and can confirm by incontestable evidence that for

CONSUMPTION,

And all all diseases of the *lungs, the liver, and the pulmonary organs,* it is *unrivalled—unequalled* — HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use* have found in the advanced state of their disease, that RELIEF FROM SUFFERING which they had vainly sought from every other source

THIS INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4½ oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS, VT, to whom all orders for supplies of the medicine should be addressed, stating the best mode of sending it)—also, sold by agents in nearly all the villages and towns in the country

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains Stiff Neck, Chilblains or Chapped hands Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All Healing Ointments and "Panaceas" that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately to which man or animal are subject

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing. We would only add, that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty *puffing of the Press*" or the "bought certificates" of individuals, and shall make use of them only so far as they have been, or hereafter may be, entirely *voluntary and unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success, I applied some Salve obtained of Mr. A M McKenny, and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL BEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, bought 14 oz of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months

SIMEON MARSTON

Gray, May 11, 1846

BANGOR, June 5, 1846

Mr McKenney —In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me, as one of the best remedies for accidental Cuts and bruises; and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle, and found it equally beneficial It can truly be called the All-Healing Salve

DR. STEPHEN JEWETT'S

Justly and Highly Celebrated

Family Medicines,

Used by Physicians of high Standing.

Prepared by STEPHEN JEWETT, son of the late *DR STEPHEN JEWETT of Rindge N H*

IT is not pretended that ANY ONE of these Medicines will RELIEVE OR CURE EVERY DISEASE! ALL REASONABLE PERSONS KNOW NO ONE ARTICLE CAN ACCOMPLISH SUCH RESULTS But it is TRUE EACH of these medicines, by thorough trial, will be pronounced to have NO SUPERIOR OR EQUAL FOR RELIEF and PERMANENT CURE of those diseases for which they are recommended as they have been tried, and proved by their constant use for the last fifty years by NUMEROUS FAMILIES and PHYSICIANS to be, TRULY 'FAMILY MEDICINES" and pronounced to be ALL THE MEDICINES ANY PERSON or FAMILY can require, unless in very extraordinary cases Their power over disease has not *been excelled—if equalled,*—as numerous cures attest, where skilful physicians have failed to produce relief

ALL CAN BE CURED, WHO WILL USE THEM AS DIRECTED, IF WITHIN THE POWER OF MEDICINE

"Dr Stephen Jewett

Dear Sir,—I have used your *Health Restoring Bitters* in my practice, and have found them very serviceable in *Dyspepsia, Humors General Debility,* and particularly in *Habitual Costiveness* I consider it one of the *best* remedies in use. Yours &c,

IRA RUSSELL, M D "

From one of the most eminent physicians in the State of New Hampshire

TEMPLE, N H, Jan 17 1849

"Dr S Jewett

Dear Sir —I have examined your *Pulmonary Elixir,* and am well satisfied that it *merits the full confidence* of the community, as being what it purports to be, an efficient and *safe* remedy for *all the diseases* to which the respiratory organs are subject It may be used with much more *safety* than almost any other article offered for this purpose, inasmuch as the danger of impaired action of those organs, so frequent and legitimate result of most other remedies of the class, by reason of *their opiate character,* is, by *this, entirely obviated*

The physician who should meet with it in families, would find it a *ready assistant,* by which his own labor in the dispensation of medicine would be obviated, and his efforts for relief essentially aided

With much consideration your ob't servant

N KINGSBURY, M D"

See what a very celebrated merchant and well known insurance agent says!

PORTLAND, Me, April 24, 1849

Dr Stephen Jewett

Sir —Having used your *Health Restoring Bitters* and *Pulmonary Elixir,* to a considerable extent, in my family, for the past winter, I would beg leave to bear testimony as to the efficacy of those medicines, the former for *restoring loss of appetite,* for *headache, languor,* and *general debility,* the latter for *coughs* and *sore throat.*— In fact, I think *no family should be without those restoratives always at hand,* thereby frequently *superseding* the *necessity of* calling in a *physician.*

Your ob't serv't, CALEB S CARTER

From George W McLellan, Esq formerly a distinguished citizen of Maine, now of the city of Boston

BOSTON, Mass, May 3, 1849

Dr. Stephen Jewett

Sir—I have used your *Pulmonary Elixir* in my family for a year or more, and it has proved *decidedly the best cough medicine I have ever known* I therefore most heartily recommend it to all who may require such a medicine

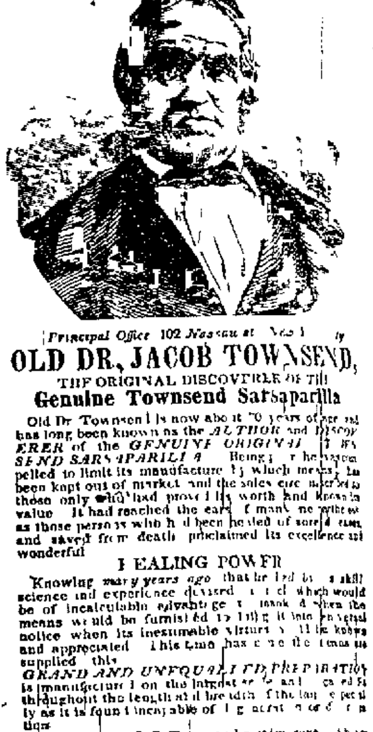
CAUTION EXTRA

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla denominating it *GENUINE* Original, etc This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like Yet he assumes the title of Dr for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend s Sarsaparilla having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms



Principal Office 102 Nassau st New York city

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL* [illegible] Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing *many years ago* that he had by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend s it improves with age, and never changes but for the better because it is prepared *on scientific principles* by a scientific man The highest knowledge of Chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr s Sarsaparilla The Sarsaparilla root, it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat are the very *essential medical properties* of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid, sweeten with sour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA* and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS ALL CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat, and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus or Whites, Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all forms of the *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility

and thus prevents or relieves a great variety of other maladies as *Spinal Irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions &c*

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness, removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre eminently need!

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS,

while the other DOES *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system — *What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischief it produces? flatulence, heartburn palpitation of the heart, liver complaint diarrhœa dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the skin, Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven but an acid substance which sours and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell and infinitely worse to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND

and yet he would fain have it understood that Old Dr Jacob Townsend s *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend s FERMENTING COMPOUND

We wish it understood because it is the absolute truth that S P Townsend s article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart* and infinitely *dissimilar* that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor and never was, is no chemist, no pharmaceutist —knows no more of medicine or of disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it and which are incapable of changes which might render them the AGENTS of Disease instead of health

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system and how to adapt remedies to these diseases

It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience its

Transcendent Power to Heal
